UNIVERSITY OF MYSORE
GUIDELINES AND REGULATIONS LEADING TO
PH.D IN DEVELOPMENT STUDIES

Programme Details

Name of the Department	: Institute of Development Studies
Subject	: Development Studies
Faculty	: Faculty of Arts
Name of the Programme	: Ph.D.

Ph. D Programme in Development Studies (DS)

Programme Outcome

By the end of the Ph D Course work, the candidates will be able to:

- Define the research types, its methods and steps, sampling techniques, primary and secondary data sources.
- Identify research problems in the field of development studies
- Demonstrate the skills by identifying a broad area of research by justifying its need, collect research literature and prepare of review of literature

Programme Pedagogy

- Conducting literature survey under the direction of the supervisor is a primary module in the research methodology.
- Participatory learning on surveys and conducting experiments under the supervision of teachers are adopted.
- Practical orientation on Sample survey data organisation and interpretation through statistical techniques is yet another major method of approach in the pedagogy.
- Evolving proper conclusions and propose possible recommendations for furtherance of knowledge in the subject and field of specialization chosen by the research scholar.

COURSE – I: RESEARCH METHODOLOGY

Course outcome

The research students will be able to:

- Define meaning of research, objectives, types of research, surveys,
- Explain the steps in research including research plan and sampling design, methods of data collection from primary and secondary sources, interpretation and analysis.
- Acquire skills on report writing techniques including footnotes and bibliography.

BS

- Identify research problems in the area of development Studies.

COURSE CONTENT

UNIT – I: Introduction

- Meaning and Characteristics and Objectives of Research
- Research in Social Sciences
- Types of Research: Experimental Research and Non-experimental Research; Pure and Applied Research
- Survey, Case Study and Field Study
- Review of Literature

UNIT – II: Research Plan and Sampling design

- Steps in Research
- Scaling and Measurement; Attitude Measurement
- Sampling Techniques, Sample Design and Choice of Sampling and Selection of Sample Size

UNIT – III: Methods of Data Collection and Data Analysis

- Primary and Secondary Sources
- Observation, Interview - construction of schedule and Questionnaire
- Data Processing, Editing, Classification, Transcription, coding and Tabulation
- Data Analysis

UNIT – IV: Interpretation and Report Writing

- Types of Reports
- Research Report- Format- Documentation
- References, Foot Notes and Bibliography
- Writing the Report and Presentation

UNIT – V: Research in Development Studies

- Identification of Problems of Research in Development Studies,
- Selection of Interdisciplinary areas for Research in Development Studies

Pedagogy

- Lecture Method
- Assignments
- Interactive Questions & Answer Session.
- PowerPoint Presentations and Seminars
- Peer group discussion & Evaluation.

12/11/22

12/11/22

COURSE – II: LITERATURE REVIEW IN THE AREAS OF RESEARCH SEMINARS AND ASSIGNMENTS

Course outcome

The research students will be able to:

- Identify the broad area for research proposal by justifying the need and tracing the motivation and relevance
- Collect Literature, and prepare a draft report by identifying an approximate statement of the research problem
- Demonstrate the skills of presentation of literature review in the area of development studies of identified problem and defend their work.

Pedagogy

- Tutorials, and Interactive Questions & Answer Session.
- Assignments
- Peer group discussion & Evaluation.
- Seminars through PowerPoint Presentations.
- Preparation of Reports

Candidate is expected to consult guide for delivering seminars
