LEADING TO
MASTER OF SCIENCE IN HUMAN DEVELOPMENT
(TWO-YEAR SEMESTER SCHEME)

Programme Details

Name of the Department : Department of Studies in Food Science and Nutrition

Subject : Human Development

Faculty : Science and Technology

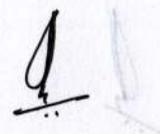

Name of the Programme : Master of Science in Human Development

Duration of the Programme : 2 years divided into 4 semesters

Name of the Program: M.Sc. Human Development

The course offers an interdisciplinary approach to understand individual and family development across the lifespan by facilitating the students to have advanced theoretical knowledge and community research skills as well as to develop professional and entrepreneurial skills related to various fields of Human Development like Early childhood education, Children with special needs, Geriatric care, Assessment of Child Development and Problem behaviours, Guidance and Counseling services, Child and Family welfare programmes, so that students would be proficient enough to address issues and concerns of individual, family and community. A hallmark of the program is to provide students with hands-on opportunities to use the knowledge and skills gained in the classroom in professional work settings. The program also allows students to carry out the studies so that students get to analyze and constructively address contemporary issues faced by diverse children, youth, families, and communities.

Duration of the Programme: 2 years- divided into 4 semesters

Objectives of the programme:

- To facilitate the students to work professionally and efficiently in Academics, Research, Curriculum Development, Management of institutions and welfare programmes, Training, Extension and Community Services related to Human Development.
- To describe the distinctive growth and development of individuals from conception to late adulthood, as well as to understand family issues and developmental challenges that occur due biological and ecological conditions.
- To enable students to pursue higher education and research in Infant, Child, Adolescent growth and development, Marriage and Family, Parenting, Parent child relationship, Early childhood education, Challenged children and special education, Reproductive health, Genetic problems and counseling, Adulthood and aging, Family and child welfare programme.
- To gain the skills to establish Entrepreneurial setups like Early childhood educational centre, Centre for Special children, Home for aged, Home for Orphans and destitute, Short stay homes for women in difficult circumstances
- To develop effective skills to extend guidance and counseling services to needy people, to identify the developmental challenges through scientific measures and to provide stimulating environment and intervention for needy people for their optimum development.

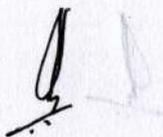

Program Outcomes

The Department of Human Development trains students in integrating the perspectives of multiple disciplines, to approach the research in human development with a critical eye, and to develop the skills that will allow them both to conduct their own research and to apply them to contemporary, real-world situations. Specifically, the student learning outcomes for Human Development include:

1. Demonstrate an understanding of the biological, psychological, social and cultural influences of lifespan human development;
2. Demonstrate an understanding of how gender, ethnicity, class, historical period, and social location relate to the life course experience;
3. Critically evaluate research relevant to human development as well as popular notions of human nature;

Programme Specific Outcomes

1. Use the primary literature of the field to prepare a clear, organized summary of a topic;
2. Understand and work effectively with a diversity of individuals and communities;
3. Apply theory and research to contemporary problems and real-world situation;
4. Design and implement research, analyze data appropriately, and judge the significance of findings.

Scheme of M.Sc. Human Development Program

Sl. No.	Course code	Title of the Course	Hard/Soft/ Open elective	Credits /Paper			
				L	T	P	Total
I Semester							
1.	18001	Theories of Human Development and Behavior	Hard Core [14 Credits]	2	1	-	3
2.	18002	Advanced Study in Human Development – Prenatal to Adolescence		2	1	2	5
3.	18003	Advanced Family Studies		2	1	-	3
4.	18004	Bio-Statistics And Computer Applications		2	1	-	3
5.	18006	Children with Developmental Challenges	Soft Core [Min 6 - Max 12 Credits]	3	1	-	4
6.	18006	Infant Development and Stimulation		1	1	-	2
7.	18007	Childhood Behavioral Problems		1	1	-	2
8.	18008	Adolescence and Youth – Challenges and Guidance		3	1	-	4
II Semester							
1.	18021	Methods and Techniques of Assessment in Human Development	Hard Core [14 Credits]	2	1	2	5
2.	18022	Advanced Study in Human Development – Adulthood		2	1	1	4
3.	18023	Women and Children in Difficult Circumstances		2	1	-	3
4.		Scientific Writing*		-	1	-	1
5.		Seminar-Current Trends and Issues in Human Development*		-	1	-	1
6.	18024	Curriculum for Early Years	Soft Core [Min 4 - Max 12 Credits]	3	1	-	4
7.	18025	Gerontology – Challenges and Care		3	1	-	4
8.	18026	Parent-Child Relationship		1	1	-	2
9.	18027	Mental Health of Children		1	1	-	2
10.	18028	Early Childhood – Health, Nutrition and Education	Open Elective	3	1	-	4

ELIGIBILITY CRITERIA FOR M.Sc. PROGRAM IN HUMAN DEVELOPMENT

B.Sc. in Home Science/ Family and community Science with specialization/ Integrated Composite B.Sc. B.Sc./B.A. Human Development/ Child Development/ Home Science

specialization/ Composite/ one optional. Psychology / Anthropology / Sociology/ Social Work as one optional. Food Science and Nutrition/ Clinical Nutrition and Dietetics/ Zoology as one optional

Sl. No.	Course code	Title of the Course	Hard/Soft/ Open elective	Credits /Paper			
				L	T	P	Total
III Semester							
1.	18041	Organization and Administration of Early Childhood Educational Institutions	Hard Core [12 credits]	2	1	2	5
2.	18042	Monitoring and Evaluation of Child and Family Welfare Programme		2	1	-	3
3.	18043	Guidance and Counseling		1	1	-	2
4.	18044	Reproductive Health-Issues and Welfare Programmes		1	1	-	2
5.		Internship in ECCE Institutions/ ECSN Institutions/ NGOs Working for Children and Women**	Soft Core [Min 4 - Max 8 Credits]	-	4	-	4
6.	18045	Legislation and the Policy Issues in Family and Child Welfare		3	1	-	4
7.		Life Skills Education		3	1	-	4
8.	18047	Adolescence – Problems and Guidance	Open Elective	3	1	-	4
IV Semester							
1.	18061	Children with Special Needs	Hard Core [10 Credits]	1	1	2	4
2.		Dissertation work ***		-	6	-	6
3.	18062	Genetic Disorder and Counseling	Soft Core [Min 6 - Max 12 Credits]	3	1	-	4
4.	18063	Mental Health of Adolescents and Adults		3	1	-	4
5.	18064	Human Rights from Child and Woman's Perspective		1	1	-	2
6.	18066	Family Stress, Coping and Adaptation		1	1	-	2
7.	18067	Parenting in Childhood Years	Open Elective	3	1	-	4

Note: For all courses except Scientific Writing and Seminar, distribution of IA and Exam marks are 50% each. Total credits needed for M.Sc. 76, [I year: 40, II year 36] Min credit per semester 18, Maximum, credit per semester - 24.

* Hard core courses on **scientific writing and seminar** shall be evaluated only for Internal Assessment under component C₁ and C₂. No examination under C₃ component

** Internship in ECCE Institutions/ ECSN Institutions/ NGOs Working for Children and Women given under soft core shall be a pre-requisite for M.Sc. Program. Under the Internship, each student shall be placed in different organizations (Governmental and Non-Governmental institutions)

during the vacation before the commencement of III semester and assigned to the teaching faculty (Guide) to supervise their work. The student shall prepare a report regarding the field and same shall be submitted for internal evaluation.

I SEMESTER

HARD CORE

COURSE – 1.1: THEORIES OF HUMAN DEVELOPMENT AND BEHAVIOR

Course Outcomes

- It helps to apply concepts and theories of Human development to real life situations
- It helps in identifying the individual's characteristic and behaviours across the life.

Preamble:

- The course helps students to understand the need for theory and practical applications of a theory
- To understand the concepts of human development and foundation for the scientific research and
- To learn about the different domains of development especially developmental pattern and influencing factors

Pedagogy

- Instructional and Lecture based , ICTs, Modeling
- Inquiry based learning, Group discussion, Seminar

Course Content

- Unit I a Meaning, Types and Functions of Theory, Theoretical perspective of Human Development and Behavior; Preformationism
- b **Development, Ethological and Ecological Theory** – Gesell's theory, Bowlby's theory and Bronfrenbrenner's Ecological theory.
- Unit II a **Personality Theory** – Psychoanalytical theories of Freud and Erickson
- b **Theory of Self** - Self-actualization theory of Abraham Maslow.
- Unit III a **Theory of Learning and Behavior** – Pavlov and Watson's classical conditioning, Skinner's operant conditioning
- b **Social Learning Theory** – Bandura's theory
- Unit IV a **Cognitive Development Theories** – Piaget's theory of Cognitive Development
- b **Theory of Moral and Language Development** – Kohlberg's theory and Chomsky's theory of Language development.

8. Sonia G. Austrian (2002) Developmental theories through the life cycle, Columbia University press

HARD CORE**COURSE – 1.2 :ADVANCED STUDY IN HUMAN DEVELOPMENT –PRENATAL TO ADOLESCENCE****Course outcome**

- To identify the age appropriate developments and delays in all age group.
- It enables to compare and contrast various issues that affect development, such as class, ethnicity, and culture.
- To identify the critical issues faced and adjustment

Preamble:

- The course helps students to study the growth and developments at different stages of life from conception to adolescence.
- To understand how human development is the product of social, psychological, and biological factors.
- To recognize the developmental tasks and problems at different stages of life from conception to adolescence
- Apply the concepts of heredity and environment to development during prenatal to adolescence stage
- To gain the practical experience via observation and assessment of developments of children

Pedagogy

- Instructional and Lecture based , ICTs, Demonstration Modeling
- Inquiry based learning, Group discussion, Seminar

- Observation, Case study, Field visit

Course Content

- Unit I
- a **Introduction to Human Development:** Definition and Need of interdisciplinary approach to study Human Development; Developmental tasks; Basic concepts of development-maturation and learning, Sensitive periods, Individual differences, Nature-Nurture issues; Secular trend in growth
 - b **Prenatal Development:** Stages of prenatal development; Influence of genetic and environmental factors on prenatal growth and development; The role of teratogens; Fetal abnormalities and diagnostic tests; Significance of the genome project for understanding human development; Importance of Indian practices during pregnancy
- Unit II
- a **Birth and Neonate:** Birth process, Types of delivery, Complications at birth, Measures of neonatal health and responsiveness, Physical and Physiological state of neonates' adjustments, Reflexes and sensory capacities.
 - b **Infancy and Babyhood:** Characteristics, Process of physical and motor development and Physiological status, Nutrition and Health, Perceptual development, Emotional, Cognitive and Language development, Social relationships during toddlerhood, the cultural experience of being an infant
- Unit III
- a **Early Childhood:** Transition from infancy to childhood; Importance and Characteristics; Physical and Motor Development; Play and Social relationships; The emerging self; Cognitive, Language and emotional in early years; early socialization - Parenting, Peers and Cultural processes
 - b **Middle Childhood:** Characteristics, Developmental tasks; Physical and Motor development – changes and challenges; Cognitive, language and Moral development; Emotional development; Sense of Industry and Personality development; Social relationships with parents, siblings, peers and teachers, Socialization by Mass media, Cultural influences; The experience of schooling – academic achievement
- Unit IV
- Adolescence**
- a Definition and Characteristics, Transition from childhood to sexual maturity- Puberty and its consequences; Physical and Psychological changes; Development of formal thoughts; Moral reasoning and judgment; Integration of the self- Issues of identity formation and Personality
 - b Role of family, Peers, community and ethnic groups; changes in social life, Vocational interests and Adjustments; Health, Sexuality, mental health, delinquency-conformity

Practical

1. Visit to Hospital - Observation of neonatal reflexes and care of high-risk child in Neonate

Intensive care unit.

2. Study on Perception of different groups/culture on infant care and development.
3. Observation and recording all round development of early childhood children (below 6 years of age).
4. Assess the cognitive and moral development of school children.
5. Survey on Adolescents' attitude towards Sexuality/Alcoholic and Substance abuse
6. Visit to Juvenile homes and observation homes.

5. Laurence Steinberg, Marc H. Bornstein, Deborah Lowe Vandell, Karen S. Rook (2010) Life-Span Development: Infancy Through Adulthood, Wadsworth Cengage Learning

HARD CORE

Course 1.3: Advanced Family Studies

Course Outcome

- Enable to identify the disorganized families, its causes and consequences
- Critically evaluate or test the efficacy of developed programme.
- Acquire skills of family therapy and use the various methodologies used in marriage, home and family studies research.

Preamble:

- The course helps students to understand the concept of family and marriage, function, structure and strengths families in Indian Context
- To study the theoretical and methodological concerns related to family studies
- To learn about the different family therapies and approaches to take care of deviated/disorganized families and
- To know the family welfare policies and programmes in India.

Pedagogy

- Instructional and Lecture based , ICTs, Demonstration

- Inquiry based learning, group discussion, Seminar

Course Content

- Unit I
- a **Family in Social Context** - Meaning, Family as component of social system; Family as an Institution and Functions of family; Current issues for research in Indian family - Changing role of parents in parenting
 - b **Socio-cultural studies of family pattern in India** - Changes in Family Structure – Factors influencing, Advantages and disadvantages; Alternative Families
- Unit II
- a **Approaches in family studies** – Interdisciplinary approaches to family studies - Developmental approach, Interactional approach, Institutional approach, Systematic approach, family life cycle approach, Ethnographic approach, Demographic approach;
 - b **Theories in family studies** Nature and importance of conceptual framework – cyclical theory, progressive theory, structural-functional theory;
- Unit III
- a **Disorganized and reorganized families, marital distress** - Family violence, Battered women, Drug addiction (Substance abuse) Alcoholic abuse, Sexual abuse, Child abuse, Dowry, Gender discrimination. Family Disorganization due to Extramarital relation, Desertion, Sexual infidelity, Separation and Divorce and Remarriage – effects on family members
 - b **Family therapy** - Theoretical developments in marital and family therapy, schools for family therapy - structured strategic, experimental family and integrated family therapy
- Unit IV
- a **National policies for family welfare** - National Family Welfare Programme, National Population Policy, National Rural Health Mission
 - b **Programmes for family welfare** - Urban Family Welfare Schemes, Sterilization Beds Scheme, Reproductive and Child Health Programme, JananiSurakshaYojana, Rehabilitation of Polio Victims and several financial assistance schemes for surgery and other health problems

5. Charles Figle and Hamilton, (1993), Stress and the family: Coping with normative transitions, Taylor & Francis, an informa company.

HARD CORE

COURSE 1.4: BIO-STATISTICS AND COMPUTER APPLICATIONS

Course Outcome:

- Select from, use and interpret results of descriptive and inferential statistical methods effectively.
- Demonstrate an understanding of the central concepts of Biostatistics theory and their practical applications
- Learn the skills of data analysis using statistical software and communicate the results of statistical analyses accurately and effectively.

Preamble:

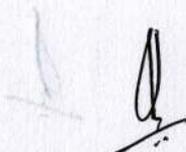

- To understand the basic concepts of probability, random variation and commonly used statistical probability distributions.
- Distinguish among the different measurement scales and the implications for selection of statistical methods to be used
- Learn to apply descriptive and inferential methodologies and Interpret results of statistical analyses
- Learn to use statistical software to analyze data.

Pedagogy

- Instructional and Lecture based , ICTs, Demonstration
- Inquiry based learning, group discussion, Seminar
- Hand on experience using statistical software

Course Content:

- | | | |
|----------|---|---|
| Unit I | a | Introduction to Statistics- Definition, need of Statistics, limitations of using statistics, Descriptive statistics and Inferential statistics. Scales of measurements-nominal, ordinal, interval and ratio scales. |
| | b | Classification and tabulation of data. Frequency distribution and graphical representation for frequency distributions. Different types of Sampling techniques-Probability and Non probability sampling methods. |
| Unit II | a | Measures of central tendency-Arithmetic mean, median and mode (with illustrations), Measures of Dispersion- range, quartile deviation, mean deviation, and standard deviation (with illustrations) |
| | b | Normal distribution and its properties. Meaning of parametric tests and non-parametric tests. |
| Unit III | a | Testing of hypothesis- meaning, definitions. Unpaired and paired sample t-tests |

for comparing means (with illustrations). Analysis of variance (ANOVA) (Concept only)-Assumptions of ANOVA; Types of ANOVA; one way and two way ANOVA.

- b Chi-square test for association (with illustrations). Correlation (with illustrations)-Product moment correlation, Spearman's rank correlation. Simple linear regression (with illustration).

Unit IV Use of computers in Statistical analysis- Introduction to statistical software's in the use of research; Important characteristics of computer applications in research using SPSS-data entry, spread sheet, basic statistical analysis and reporting.

Practical Exercises under Tutorials

Introduction to Computer application in Statistics – Data entry, spread sheets – data analysis and statistical interpretation using statistical software like SPSS and MINITAB – reporting

SOFT CORE

COURSE 1.5: ADOLESCENCE AND YOUTH– CHALLENGES AND GUIDANCE

Course outcome:

- Recognize the changes that occur in adolescents and help to develop a positive acceptance of self
- Demonstrate understanding of theoretical perspectives and apply research to understand adolescents and youth
- Able to identify the behaviors that are normal as well as the behaviors those are different from normal development.

Identify the lifestyles factors to determine their impact on the functioning of adolescents and youth in families.

Preamble:

- To understand theoretical and scientific approach of developments of adolescence and youth.
- Gain the knowledge regarding issues, changes and challenges faced by adolescents and youth; and learn about how to overcome it.
- To understand the principles and strategies for guidance and counseling to needy people
- To learn the policies and welfare program available for adolescents and youth in India.

Pedagogy

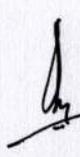

- Instructional and Lecture based , ICTs,
- Inquiry based learning, group discussion, Seminar

Course Content

- | | | |
|----------|---|---|
| Unit I | a | Adolescence and Youth – Definition, Concept of adolescence and youth in India, Significance and Developmental tasks of adolescence and youth |
| | b | Theoretical perspectives – G. Stanley Hall, Anna Freud, Erik Erikson, James Marcia, Kagan and Margaret Mead; Indian Perspectives |
| Unit II | a | Perspective of Adolescent and youth Development – Physical changes, cognitive changes, psychological changes and sociological changes; Identity formation; Changes in attitude, interest and behavior; Factors influencing the developments and its consequences |
| | b | Relationships During Adolescence and Youth - Parent-adolescent/youth relationship, Sibling relationship; Peer relationship, Heterosexual relationship |
| Unit III | a | School, College, Work and Career During Adolescence and Youth – Educational Opportunities and Formal Training, Importance of Academic Achievement and Failure - Related Issues, Training for Career and Work |
| | b | Challenges and Problems of Adolescents and Youth – Psychological, Physiological, Sociological, Educational and Vocational problems; Challenges and problems in the Indian educational context. |
| Unit IV | a | Guidance And Counseling for adolescent and youth – Principles and strategies for guidance, theoretical approaches and developing a personal /Eclectic approach, Parents and Family Involvement etc. |
| | b | Policies and Welfare Programme for Adolescents and youth in India – Government Policies |

SOFT CORE

COURSE 1.6: CHILDREN WITH DEVELOPMENTAL CHALLENGES

Course Outcome:

- Develop the skills to identify and manage children with developmental challenges.
- Demonstrate the knowledge, training and management program for children with developmental disabilities
- To acquire the skills of providing training and management of programme for needy people.

Preamble:

- To understand the different types of children with developmental challenges and its impact on children and their families.
- To learn how early intervention can improve long-term outcomes for children with developmental challenges
- To understand the importance of needs and fundamental rights of children with developmental disabilities

Pedagogy

- Instructional and Lecture based , ICTs
- Inquiry based learning, group discussion, Seminar
- Observation, Field visit, case study and discussion

Course Content

- | | | |
|----------|---|--|
| Unit I | a | Developmentally Challenged Children – Definition of Development, Developmental delays, Impairment, Disability and Handicaps; International Classification of Impairment, Activities and Participation (ICIAP); Magnitude of Challenged Children – Global and Indian Perspective. |
| | b | Training and Management Programmes – Need for Home based skill training programme, Problem behavior management programme, Intervention Programme |
| Unit II | a | Pervasive Developmental Disorder –Autistic Disorder, Retts’ Disorder, Childhood Degenerative Disorder, Aspergers’ Disorder and Schizophrenic Disorder - Definition, Characteristics, Prevalence, Training and Management |
| | b | Attention Deficit and Disruptive Disorder – Attention Deficit Hyperactive Disorder, Behavioral Problem and Conduct Disorder - Definition, Characteristics, Prevalence, Training and Management |
| Unit III | a | Communication Disorder – Expressive Language Disorder, Mixed Receptive – Expressive Language Disorder, Phonological Disorder and Stuttering - Definition, Characteristics, Prevalence, Training and Management |
| | b | Motor Skills Disorder – Dyspraxia, Synkinesia/Muscle Overflow, Hypotonus, Hypertonus, Tremors and Impersistance, Asymmetry - Definition, |

Characteristics, Prevalence, Training and Management

- Unit IV
- a Feeding/Eating and Elimination Disorder – Pica, Rumination Disorder, Psychogenic Vomiting, Psychogenic/Non-organic Encopresis and Psychogenic/Non-organic Enuresis - Definition, Characteristics, Prevalence, Training and Management
 - b Emotional Disorder and Epilepsy – Attachment Disorders, Elective or Selective Mutism, Phobias, Depressive Disorder, Separation Disorder, Conversion Disorder, Sibling Rivalry Disorder and Epilepsy - Definition, Characteristics, Prevalence, Training and Management

SOFT CORE

COURSE 1.7: INFANT DEVELOPMENT AND STIMULATION

Course Outcome:

- Demonstrate an understanding of the methodological issues related to infant assessment and to identify the infants at risk conditions
- Acquire the skills of conducting multisensory stimulating activities for promoting the developments of infants

Preamble:

- To understand the significance of infancy, developmental process and assessment.
- To gain the knowledge on early interaction, early identification and role of intervention and stimulation program for developments in infants

Pedagogy

- Instructional and Lecture based , ICTs
- Inquiry based learning, group discussion, Seminar
- Visit to hospital and early intervention centre, Case discussions

Course Content

- Unit I **New born and Infant Development and Behavior** - New born behavior and capacities; Development and abilities during infancy; adaptation strategies to cultural setting and practices; Influence on growth and development; development at risk conditions
- Unit II **Early Interaction: A beginning in Attachment formation** – Course of attachment, Dyadic verses Multi-caring, Role of Father in formation of attachment, Interaction as a cultural process
- Unit III **Developmental Assessment** – Understanding the process of development, Need and reasons for infants assessment, methodological issues related to infant assessment – Apgar Scale and Brazelton Scale, Ethical issues and concerns related to infant assessment
- Unit IV **Intervention and stimulation programmes/activities** – The need and rationale for intervention and stimulation programmes/ activities, The process involved in planning and implementing intervention programmes with specific reference to the Indian setting, Traditional methods, games, songs of infant care and stimulation, Issues and concerns related to intervention programs, Multisensory stimulation Programme

SOFT CORE

COURSE 1.8: CHILDHOOD BEHAVIORAL PROBLEMS

Course Outcome:

- Able to identify the normal and problematic behaviors that occur in children
- Acquire the skills to plan and conduct the educational or intervention program involving parents and teachers
- Sensitive enough to understand the unmet emotional needs and role of parents/teachers in managing the children with emotional and behavioral problems

Preamble:

- To learn the concept of common behavioral problems with which children are suffering from
- Learn to recognize the symptoms and management of children with emotional and behavioral disorders
- To understand the role of parents and teachers as well as counselor in dealing children with behavioral problems

Pedagogy

- Instructional and Lecture based , ICTs, Demonstration
- Inquiry based learning, group discussion, Seminar
- Case study and discussion, Observation,

Course Content

- Unit I Childhood Years – Definition and concept of childhood, Significance of childhood years, Developmental tasks; Emotional and social behavior in childhood
- Unit II Common behavioral problems- Hurts other Children, Destroys things, Uses bad language, Thumb sucking, Bedwetting Masturbates, Attention seeking, Fears, Stealing, Lying, Runs away from home, Refuses of Eat and Disturbed sleep-Causes and Characteristics and Management.
- Unit III Emotional and behavioral disorder- Anxiety Disorder, Separation and Social Anxiety Disorder, Attention Deficit Hyperactive Disorder, Conduct Disorder, Obsessive Compulsive Disorder - Causes and Characteristics and Management

Unit IV Role of parents and teachers dealing with problematic Children; Role of counselor

II SEMESTER

HARD CORE

COURSE – 2.1: METHODS AND TECHNIQUES OF ASSESSMENT IN HUMAN DEVELOPMENT

Course Outcomes

- Evaluate research methods and techniques used in studying Human development and behaviors
- Know the skills of how to select, administer, score, and interpret standardized testing of assessment instruments appropriate to specific populations.
- To develop the skills of standardization of scales

Preamble:

- The course deal with the different scientific methods and techniques used in assessment of developments and behaviors.
- The students gain the knowledge regarding attitude, aptitude, interest and achievement through different tests.

Pedagogy

- Instructional and Lecture based , ICTs, Demonstration Modeling
- Inquiry based learning, Group discussion, Seminar
- Observation, Case study, Field visit,
- Assessment of growth and development, behaviours of Humans across the life

Course Content

- Unit I
- a Methods of research in Human Development – Meaning, objectives Significance, types of research, Research approaches- cross sectional, longitudinal, sequential approach, Research design - Types and process, criteria of good research
 - b Scientific Methods and their criteria – Reliability, validity control, item analysis, assessment methods; Use of objective measures and methods - Observation, Interview, Questionnaires, Case study, case history and report writing
- Unit II
- a Assessment – Definition, function, concept of measurement, techniques and their relative efficacy in measuring different aspect of human development, ethical issues in the assessment of human development
 - b Development of test/scale and standardization procedure types of scales – nominal ordinal interval and ratio scales
- Unit III
- a Methods of Studying Growth and Body Size– Significance of Anthropometric measurements, measurement techniques, calculation of indices and inference, comparison with reference standards
 - b Assessment of Mental Ability – Developmental procedures, Practical uses of Verbal and Non-verbal tests and its limitations
 - c Measurement of Social and Emotional Development – Socio-metric method and

socio-gram, Emotional intelligence and competencies - Developmental procedures, Uses and limitations.

- Unit IV
- a Personality Assessment – Rating Scales, Inventories and Projective Techniques – Purpose and developmental procedures, Uses and limitations
 - b Assessment of Attitude, Aptitude, Interest and Achievement – Survey of batteries and specific subject test – developmental procedures, Uses and limitations

Practical

1. Assessment of Physical growth of subject by using anthropometric measurements
2. Preparation of schedule/questionnaire to study the child rearing practices
3. Assessment of Intellectual development by using intelligence scales
4. Assessment of Personality and behaviors of children/adolescents of children/adolescents/ adults using inventories
5. Assessment of achievement, interest, and aptitude of children/adolescents/adults
6. Assessment of attitudes of young adults towards family planning and population education

HARD CORE

COURSE – 2.2-ADVANCED STUDY IN HUMAN DEVELOPMENT – ADULTHOOD

Course Outcomes

- Gain a general understanding of the various Biological and sociological theories of aging.
- Demonstrate knowledge to understand the adults in terms of developments, adjustments and relationship.
- To identify the problems of elderly people and to evaluate welfare programmes for aged in India.

Preamble:

- The course deals with different stages of development with specific focus on adulthood and aging and development through the adulthood in different perspective such social, psychological, and biological factors and students learns about the process of aging Biological, psychological and sociological perspectives.

Pedagogy

- Instructional and Lecture based , ICTs, Demonstration Modeling
- Inquiry based learning, Group discussion, Seminar
- Observation, Case study, Field visit, survey and interview
- Assessment of adults and geriatric population

Course Content:

- Unit I **Introduction to Adulthood and Development** – Adult growth and development psychology – Biological, cultural, developmental perspectives; Life span approach- sexuality, marriage, marital adjustment, parenthood; Theoretical Perspectives in Adult Development - Individual, Family and Career perspective; Stages of adulthood; Demography on adult population in India
- Unit II **Early/Young Adulthood** – Biological and developmental tasks; Physical, intellectual and personality development; Importance of social organization- Single life, Marriage and Marital adjustments; Parenthood and Non-parenthood, Divorce and remarriage; Vocational patterns and adjustment-Culmination of identity formation; Health status
- Unit III **Middle Adulthood** – Physical continuity and changes-Sensory abilities, Physiological functioning and appearance; Adult intelligence; Personality development - Development of Self; Roles in family and Maintaining Family relationship, Friendships; Inter-generation relationships-Parenting adult offspring and their marriage, Health and Disease, Menopause in Women, Adult sexuality; Work and Career development
- Unit IV **Late adulthood and Old age** – Changes in physical, cognitive abilities and creativity; Physical aspects of aging; Health and disease; Continuity and change in personality; changes in family life cycle and social relationships; occupational continuity and Change-effect on identity; Work and Retirement; Alternative life styles and Leisure time activities; Death, dying and bereavement

Practical

- 1 Assessing the attitudes of young adults towards single life/ marriage/remarriage
- 2 Studying the perception of men and women on parenting responsibilities.
- 3 Assessment of role satisfaction of middle adults in family and work place.
- 4 Visit to old age homes and writing case histories on two inmates.
- 5 Assessing the problems of aged in society
- 6 Organizing recreational activities and counseling activities for the aged with help of resource person (Yoga, lectures etc.) and report writing.

HARD CORE

COURSE – 2.2:WOMEN AND CHILDREN IN DIFFICULT CIRCUMSTANCES.(HARD CORE)

Course Outcomes:

- To identify the women and children in difficult circumstances in the community.
- Acquire skills to conduct intervention programmes or analyze the program available to needy people

Preamble:

- The course analyses the issues and challenges faced by women and children in India and to understand the causative factors of women and children in difficult circumstances.
- The students gain awareness on intervention programmes for women in difficult circumstances.

Pedagogy

- Instructional and Lecture based , ICTs, Demonstration Modeling
- Inquiry based learning, Group discussion, Seminar
- Observation, Case study, Field visit
- Assignment, Group discussion, Field visit, multiple choice questions.

Course Content:

Unit I	A	Issues and challenges of women In India- Demographic Statistics Categories of women in Difficult Circumstances – Destitute/Deserted women, Domestic violence, Trafficking/Prostitution,
	b	Destitute/Deserted women - Definition, Causative Factors, Health Status and Intervention Programmes for destitute/Destitute women
Unit II	a	Domestic violence - Definition, Causative Factors, Health Status and Intervention Programmes for Domestic violence
	b	Trafficking/Prostitution - Definition, Causative Factors, Health Status and Intervention Programmes for trafficking women
Unit III	a	Children in Difficult Circumstances – Introduction, Demographic Statistics

- in India, Classification of Children in Difficult Circumstances – Child Labor, Destitute Children, Street Children, and Delinquent Children
- b Child Labor and Destitute Children – Definition, Causative Factors, Health Status and Intervention Programmes for Child Labors
- Unit IV a Street Children - Definition, Causative Factors, Health Status, Life Style, Problems and Intervention Programmes for Street children
- b Delinquent Children - Definition, Causative Factors, Health Status and Problem, Prevention, Control and Rehabilitation

HARD CORE

COURSE-2.4: SCIENTIFIC WRITING.

Course Outcomes:

- To appreciate and understand importance of writing scientifically.
- To develop the competence in writing and abstracting skills.

Preamble:

- The course provides common features of scientific writing and able to paraphrase scientific ideas.
- Students understand how to write more critically and identify the difference between description and analysis.

Pedagogy:

- Teaching, PPT, and OHP presentations.
- Assignment, collecting research articles, Abstract writing.

Course content:

Scientific writing as means of communication-Different forms of scientific writing; Reasoning for preparing outlines and kinds of outline; Table as systematic means for presenting data, Formatting tables and appendices-use and guidelines; Writing process - getting started, use of outline as starting device, drafting, reflecting, re-reading, brevity and precision in writing, drafting and r-drafting based on critical evaluation;

Part of Dissertation/Research report/Article – Introduction, Review of literature, Methods, Results and Discussion, Summary and abstract, References;

Writing for grants – the question to be addressed, Rationale and importance of question being addressed, empirical and theoretical framework, Presenting pilot study/data or background information, research proposal and time frame, specificity of methodology, organization of different phases of study, Expected outcome of study and its implications, budgeting, available infra-structure and resources, executive summary

HARD CORE

COURSE-2.5: SEMINAR-CURRENT TRENDS AND ISSUES IN HUMAN DEVELOPMENT.

Course Outcomes:

- To acquire skills of presentation, discussion, listening, argumentative, critical thinking, and questioning skills.
- Able to understand the research cause and outcomes of a given subject and to analyze the results of research.

Preamble:

- The course create awareness regarding current trends, issues and researches related to various aspects of Human Development, Early childhood education, Family studies and Children with special needs.
- The course provides opportunity to learn new concepts and skills and further develop research outlines in relation to major area/discipline.

Pedagogy:

- PPT, OHP presentation.
- Collecting research articles, abstract writing, report writing.

Course Content:

- | | |
|----------|--|
| Unit I | Trends and Issues related to process of Development – Psycho-motor, Perceptual, Cognitive, Socio-emotional, Language and Moral Development |
| Unit II | Trends and Issues related to Early Childhood Development, Care and education – Demographic Status, Attrition in early Preschool and Primary Years, gender Equality and Equity, Issues related to curriculum of ECCE, Training of ECE Personnel |
| Unit III | Trends and Issues related to Life Span Development – Infancy, Childhood, Adolescence, Adulthood and Old age |

Unit IV Trends and Issues related to Family Studies – Changing Pattern of Family Life, Alternative Families and Family Problems

SOFT CORE

COURSE-2.6: CURRICULUM FOR EARLY YEARS.

Course Outcomes:

- To realize the significance of early years and issues related to ECD
- To understand the need for curriculum planning in early years and developing/understanding of ECCE curriculum models and approaches.
- Develop skills to plan, implement and evaluate ECCE programme.

Preamble:

- The course provides the concepts of early child development [ECD], early childhood care and education [ECCE], various issues and concerns related to ECD/ECCE programme.
- The students learn the ECCE curriculum and intervention models, Innovative programmes and approaches used in ECCE.

Pedagogy:

- Teaching, PPT, and OHP presentations.
- Assignments, group discussion, seminar presentation.

Course Content:

- Unit I
- a Issues of Early Childhood– Need and importance of Early Child Development (ECD) and Early Childhood Care and Education (ECCE), Determinants of child survival and development; Ensuring quality and effectiveness in ECD programmes; Provision of equity and access to programmes; Diversity in programme conceptualization, training and implementation;
 - b Contributions of Educators and its implications for programme planning; ECCE curriculum and Intervention models and innovative programme and approaches across countries
- Unit II
- a Programmes and approaches be studied with reference to theoretical concepts, Programme content, learning environment, Role of teacher, Role of learner and parents; Contemporary theories, practices and policies in ECCE; Current research and trends in ECCE
 - b Role of Parents and community in ECD Programme – Developing sensitivity to cultures and traditions of community, methods and strategies for parents and community; Reasons for involvement and need assessment; effective use of involvement to monitor and enhance programme quality;
- Unit III
- a Understanding importance and value of play, theories of play and its implications for planning ECCE programmes
 - b Planning ECCE Programme
- Unit IV
- a Issues and concerns related to ECCE/ECD programme – Coverage of

populations, reaching the unreached; gender equality and equity; Quality and sustainability; Training of personnel; Accreditation

- b The need and role of advocacy for quality and ECCE programmes – Consultancy and advocacy among ECD professionals; Advocacy role with NGOs, Government Institutions, national/International organization, Policy planners and media

SOFT CORE

COURSE-2.7: GERONTOLOGY – CHALLENGES AND CARE

Course Outcomes:

- Demonstrate the knowledge to sensitize to issues related to health care of the elderly people.
- Acquire skills for organizing activities for elderly

Preamble:

- The course provides the concept of aging, changes/changing life style and adjustment pattern that takes place during late adulthood and students learn theoretical perspectives of aging and aging process, research trends and methodological issues in Gerontology.
- Students also learn about geriatric issues, Health challenges and care, welfare programme for elderly people in India.

Pedagogy:

- Teaching, PPT, and OHP presentations.
- Assignments, group discussion, seminar presentation, field visit, case study.

Course Content:

- | | | |
|--------|---|---|
| Unit I | a | Gerontology – Emergence and scope of gerontology; Demographic profile of the aged in Indian Context; Concept of aging - Social, medical, psychological, occupational changes |
| | b | Theoretical Perspectives of Aging – Disengagement theory, activity theory, Human Development theory, Continuity theory, Age Stratification theory, Labeling theory |

- | | | |
|----------|---|---|
| Unit II | a | Aging Process – Impact of aging on Biological/Physiological aspects; Psychological, Economic, Social and Spiritual aspects, |
| | b | Health Challenges and Care – physical, psychological, social problems, Factors influencing on health status and care required for aged |
| Unit III | a | Adjustment Patterns and changing life style in old age – Family pattern, Changing roles and the aging family-conjugal, Husband-wife relations, sexual adjustment; marital adjustment; Intergenerational family relations- Grand parenthood, Widowhood/Singlehood; Alternative life styles, Remarriage in later years |
| | b | Work, Leisure and retirement patterns – Work-meaning of work, individual motivation; Leisure; Retirement – benefits, Attitude towards retirement; Poverty, poor health retirement and suicide; abandonment, liberation and diachronic solidarity |
| Unit IV | a | Research trends in Gerontology and Methodological issues |
| | b | Welfare of the Aged – Categories of services- Housing, health, leisure time activities; Institution for the aged- Day care Centers; Economic programmes - Re-engagement, Retirement pension, death cum gratuity, provident fund, health insurances, insurance scheme, investment and taxation and property |

SOFT CORE

COURSE-2.8: PARENT-CHILD RELATIONSHIP

Course Outcomes:

- Acquire skills of parenting and identify the facilitating and debilitating factors for positive parent-child relationship.
- To aware about organizing parent education programme and how to address the issues of parent-child.

Preamble:

- The course provides major concepts, issues and theoretical approaches of parent-child relationship across the life span.
- Students learn the impact of parent-child relationship on individuals, managing conflicts and establishing emotional closeness.
- The course provides parenting programme, issues and resource for conducting parent education.

Pedagogy:

- Teaching, PPT, and OHP presentations.
- Assignments, group discussion, seminar presentation.

Course Content:

- Unit I Introduction to Parent-Child relationship – Major concepts, issues and theoretical approaches to the exploration of parent-child relationships across the lifespan; current research on issues pertaining to parent-child relations.
- Unit II Parent-Child relationship across the lifespan – Prenatal, Infancy, Preschool, School Age, Adolescence & Grand Parenting, Tasks of parenting, Facilitating and Debilitating Factors for positive parent-child interaction
- Unit III Impact of Parent-child relationships on Individuals – children and parents; Emotional Relationships-Establishing Closeness, Emotional Coaching and Managing Conflict
- Unit IV Parenting Programs – Need for parenting programs, Issues of Parent education, resources for parent education

SOFT CORE

COURSE-2.9: MENTAL HEALTH OF CHILDREN.

Course Outcomes:

- Acquire skills to organize awareness programmes to the parents and teachers to deal children with mental health problems.
- Identify the need for guidance and intervention to the children with mental health problem.
- Develop skills of organizing mental health programme in community.
- Demonstrate knowledge to understand the mental health policy of India.

Preamble:

- The course recognizes the concept of health and mental health. Students understand the mental health issues that affect children and to understand the needs and programme for community mental health.
- The course deals with the role of teachers in identification and addressing students' mental health and problems related to school and home. The course also provides the significance of intervention/guidance to children with mental health problems and the role of professions and family members

Pedagogy:

- Teaching, PPT, and OHP presentations.
- Assignments, seminar presentation, Case study, field visit.

Course Content:

- Unit I Mental Health – Definition, Concept and Importance of holistic health, well-being and happiness; National Mental Health policy of India (1982); Needs and Programmes for community mental health.
- Unit II Infancy – Implication of attachment and bonding for mental health; Deprivation syndrome; Malnutrition and its effect on growth and behaviour; Intervention with families, and Professionals from allied fields.
- Unit III Mental health needs and Behaviour Difficulties Manifested at Early Childhood Years – Safety, Security, Relationships, Autonomy and Self concept, Nutrition and Health; Feeding problems, Aggression, Withdrawal and Problems related to early schooling and formal leaving.
- Unit IV Mental health needs, Problems related to school, Maladjustment at home and school – recognition, appreciation, friendships and industry, discipline, truancy, fears and phobias, violence and sexual abuse, Learning difficulties and disabilities; Providing guidance / Intervention work with children, parents, teachers, peers and school administration.

OPEN ELECTIVE

COURSE-2.10: EARLY CHILDHOOD – HEALTH, NUTRITION AND EDUCATION.

Course Outcomes:

- To gain the insight into early childhood development and factors influencing the developments
- To identify the health, nutrition and educational needs during early childhood years.
- Critical evaluate the intervention programme related health, nutrition and education of young children

Preamble:

- The course deals with the growth and development during early childhood years.
- Students learn the significance of health, nutrition and education during early years.
- Handle child suffering from common illness and ailments, Behavioral and emotional problems and the role of parents.
- Students understand the nutritional needs, factors affecting nutritional status and nutritional intervention programme.

Pedagogy:

- Teaching, PPT, and OHP presentations.
- Assignments, seminar presentation, group discussion.

Course Content:

- Unit I **Introduction to Early Childhood Years**– Definition and significance of early childhood years; Growth and development during early childhood years.
- Unit II **Health Care and Problems** - Common Illness And Ailments – fever , cold ,chicken pox, measles, mumps, rubella (German measles), colds and flue, diarrhea and vomiting, Prevention of illness, Handling sick children; Health care and immunization; Emotional and Behavioral problems and parental guidance
- Unit III **Nutritional Status and Problems** – definition, significance of nutritional status, nutritional needs, common childhood nutritional problems, Factors affecting Nutritional status; Nutritional Intervention programme in India
- Unit IV **Early Childhood Education** - Definition, Need and importance, aims and objectives, Psychological development during early childhood years; Outcome of early childhood education on all round development.

III SEMESTER

HARD CORE

COURSE – 3.1: ORGANIZATION AND ADMINISTRATION OF EARLY CHILDHOOD EDUCATIONAL INSTITUTIONS

Course outcome

- Acquire the skills for organization and administration of ECCE Centre
- To gain the knowledge and insight regarding issues related to early childhood care and education
- To develop the skills and techniques to plan activities in ECCE center of different types, to conduct activities in ECCE Centre and to conduct parent education.

Preamble:

- To understand the concept and needs of early childhood education.
- To learn about requisites of organization and administration of ECCE Centre.
- To know about the programme planning and evaluation of programme.
- To learn the personnel and material management and parent-teacher cooperation

Pedagogy

- Instructional and Lecture based teaching, ICTs, Demonstration, Modeling
- Inquire based learning, Group discussion, Seminar
- Hands on experience in planning and conducting the preschool activities for young children and awareness program for parents
- Field visit to observe the activities and programme of Early childhood Education

Course Content

- | | | |
|--------|---|--|
| Unit I | a | Early Childhood Care and Education – Meaning, Needs Significance and Objectives; Types of ECCE Programmes – Balwadi, Anganwadi, Nursery School, Kindergarten, Montessori, Laboratory Nursery school, Mobile Crèche, Play Group |
| | b | Historical Perspectives of ECCE and Contribution of educators – Western and Indian History, Western Educators - Commonius, Rousseau, |

Pestalozzi, Frobel, John Dewey, Maria Montessori, McMillan Sisters, Indian Educators - M. K. Gandhi, Rabindranath Tagore, Annie Besant, Gijubhai Badheka, Tarabai Modak; Contribution of Agencies

- Unit II
- a Organizational set up – location and site, building plan, play ground, selection of different types of outdoor and indoor equipment, maintenance and display of equipment and materials.
 - b Personnel Management – Personnel Selection, Recruitment, Qualities, Roles, Duties and Responsibilities; Co-operation and Co-ordination of Personnel; Parent Teacher Co-operation; Supervision and Monitoring, Evaluation of Personnel and Programme
- Unit III
- a Programme Management – Programme Planning and Types; Factors Considered while Planning Programme; Daily Schedules and Lesson Preparing; Preparation of Various Activities for Children catering to all round development; Considering Individual and Group needs while Planning and Preparing Activities. Planning and conducting parent education programme
 - b Material Management – Equipments and Materials for Play and Learning – Selection, Care and Use of equipments; Material needed for learning – Teaching Aids for various activities; Indigenous Teaching and Play equipments; Equipment needed for Urban and Rural preschools of different type.
- Unit IV
- a Financial Management – Financial Allocation, Budgetary Consideration, Budget making, Resources generation avenues.
 - b Documentation – Needs, Importance and Principles of Record keeping, Types of records maintained in preschool – Admission, Attendance, Health, Developmental record, Teacher’s estimation record, Family background record, Anecdotal records and Reports.

Practical

1. Visits to institutions concerned with early childhood education – Day care centre, Play home, Crèche in different areas.
2. Preparation of teaching materials for pre-school children.
3. Planning and Participation in preschool organization and evaluation (Two days/week – Two months)
4. Organizing the Parent education programme in a preschool in slum areas – Parents’ meeting, Workshop, Exhibition.

HARD CORE

COURSE– 3.2: MONITORING AND EVALUATION OF CHILD AND FAMILY WELFARE PROGRAMME

Course outcome

- To implement and evaluate programs for children and family
- Enable them to monitor and evaluate programs.
- evaluate the welfare program for children and families

Preamble:

- This course aims to provide the purpose, scope and challenges in the management of programme for children and families.
- To study the various approach, process tools and techniques used in monitoring and evaluation of programme.
- To understand the need and rationale for effective monitoring and evaluation of programme

Pedagogy

- Instructional and Lecture based , ICTs
- Inquiry based learning, Group discussion, Seminar
- Field visits to Government and Non-Government

Course content

- | | |
|----------|--|
| Unit I | Monitoring and Evaluation – Purposes and Objectives – Need and Utility of monitoring and evaluation towards effective and efficient project management; Scope and Meaning; Linkages between monitoring and evaluation; Formulating indicators based on programme goals and objectives |
| Unit II | Process and Techniques of Monitoring - Delineating goals, Facets and indicators for monitoring; Duration and Stages of monitoring process; monitoring as a part of management information system; monitoring quality; balance in programme core components; quality and community needs; quantity and cultural context; core quality indicators; modifying existing system of monitoring and supervision based on outcomes |
| Unit III | Evaluation and Appraisal Programmes – Stake holders in evaluation – agency, clients, professional and other staff, community and funding agency; Baseline/Benchmark Survey; Kinds of evaluation – formative, Summative and ex |

post evaluation; Internal and External evaluation, Result oriented evaluation

Unit IV Economic Evaluation – Effective Use of Resources, Achieving Value for Resources/money; Steps in Economic Evaluation

HARD CORE

COURSE– 3.3: GUIDANCE AND COUNSELING

Course outcome

- Enable them to analyze the concepts, scope, and theories that govern the process of guidance and counseling
- To offer guidance or counseling and apply appropriate counseling techniques to solve students' problems

Preamble:

- This course helps to understand the need for guidance and counseling across the life span.
- To learn the concept of guidance, counseling and therapy, its process, Qualities and responsibilities of counselors.

Pedagogy

- Instructional and Lecture based , ICTs, Observation
- Inquiry based learning, Group discussion, Seminar
- Case study and discussion,

Course Content

- Unit I
- a Guidance and Counseling – Meaning, Nature, Scope, Principles, Goals, Needs of Guidance and Counseling of different groups, Relationship between guidance and counseling
 - b Types and Techniques used in guidance – Educational, Vocational, Socio-personal, Leisure time guidance; Individual and Group Guidance – Meaning and needs, Advantages, Techniques used; Role of audio-visual aids in

- guidance
- Unit II a Counselors –Characteristics, Qualification and qualities, Skills and Competencies; Ethics – Do’s and Don’ts; Limitations and Professional growth of counselors; Tips for becoming effective counselors
- b Counseling Process – Preparation and Pre requisites for counseling stages in counseling process, Follow up and Review
- Unit III a Counseling Approaches and Techniques – Meaning, Origin, Procedure, Merit and Limitations of counseling approaches; Psychoanalysis approach, Carl Roger’s approach, Rational–Emotive approach; Counseling techniques – Client-centered, Counselor-centered and Eclectic counseling.
- b Types of Counseling - Individual and Group counseling - Tools Required, Types of groups, Process of individual and Group counseling, Merits and Limitations – Situations that lend for group counseling situation
- Unit IV a Areas of Counseling – Premarital and Marital counseling, Family counseling, Parental counseling, Adolescent counseling, Counseling for girls and children belonging to special groups
- b Special Concerns of School Counselor – Issues related to academic achievement, School dropout, Child abuse, Sexual abuse, Substance abuse, Family relations and child’s right

HARD CORE

COURSE– 3.4: REPRODUCTIVE HEALTH-ISSUES AND WELFARE PROGRAMMES

Course outcomes

- Demonstrate understanding of the occurrence and prevention of sexually transmitted diseases and unwanted pregnancy.
- Be able to identify the significance of reproductive health.

- Develop awareness program on birth control measures.
- To work in areas related to reproductive health.

Preamble:

- To understand the issues of reproductive health to learn about family planning methods and welfare programmes related to reproductive health.
- To know the sexually transmitted diseases and aware about symptoms, management techniques and coping strategies.
- To know about policies and program related to Reproductive health.

Pedagogy

- Instructional and Lecture based , ICTs, Dramatization
- Inquiry based learning, Group discussion, Seminar
- Field study and survey, Visit to Government and Non-government organization
- Participation community activities

Course content

- | | | |
|----------|---|--|
| Unit I | a | Guidance and Counseling – Meaning, Nature, Scope, Principles, Goals, Needs of Guidance and Counseling of different groups, Relationship between guidance and counseling |
| | b | Types and Techniques used in guidance – Educational, Vocational, Socio-personal, Leisure time guidance; Individual and Group Guidance – Meaning and needs, Advantages, Techniques used; Role of audio-visual aids in guidance |
