Project Summary

EQUAMBI is designed to address Quality Assurance management to properly support the governance and decision making required for institutional advancement and enhancement. Based on a comparative exploration of current activities and planned objectives, against international best practice, this Project will provide a 'benchmarking toolkit' and a programme of capacity building / dissemination will provide guidance for Indian universities on how best to improve / enhance their governance and management of 'quality'. Whilst underpinned by agreement on the shared bases and principles for 'quality', the project is targeted at three specific and critical areas: teaching and learning; research and innovation; internationalisation.

Dear Dr. G Hemantha Kumar,

I m happy to inform you that our EQUAMBI project (enhancing QA Management & Benchmarking strategies in Indian Universities) was awarded for funding under the ERASMUS + Capacity building program of the European Commission.

The EQUAMBI project is an EU-Funded project lead by the University of Barcelona (and its SKA platform based in India) together with National Accreditation Agency of the Republic of India -NAAC- and the Spanish National QA & Accreditation Agency- ANECA.

While the project has been prepared and lead by the University of Barcelona with the support of NAAC and ANECA I m sure that our inputs during the preparation of the application were key to have such a good result.

I would also like to ask you to **SAVE THE DATE for the KICK OFF MEETING of the project. The kick off meeting will take place the next 6-7 December in BANGALORE, INDIA . We will send you in the next weeks all the logistic information regarding hotel options and visas.**

Again, I would like to thank NAAC and AENCA for the support during the preparation of the project.

Best Regards,

Nicolás
