To  
The Registrar  
University of Mysore  
Manasagangotri  
Mysuru 570006

Through : The Director, PMEB, Mysuru 570006

Dear Sir,

I am herewith forwarding a letter received from Prof. A. Balasubramanian, Professor of Earth Science (Retd), Consultant, University of Mysore, Mysuru 570006. The letter is related to deployment of the SAILOS (Students' Academic Information and Learning Objects) developed by MLRCC with the official support of Dr. Mukundraj, IT Consultant, Department of IT, Government of Karnataka under a project by MLRCC-UPE. Pending to the proper deployment of the software, the SAILOS service is non-operational now. The website service can be accessed and used on intranet of the University of Mysore once it becomes operational. Incidentally, it may be noted that in the meeting on June 1, 2020, honourable Vice-Chancellor has taken cognisance of the issue and approved in principle the deployment of the software.

The software hosts the learning objects which are useful for the students and teachers of the University of Mysore – both postgraduate and undergraduate. Already more than 4500 learning objects in the form of videos, audios, images etc., are available with the University and they can be uploaded into SAILOS. The learning objects are uploaded onto the software under Creative Commons Licence where in the creator allows the learning objects to be used on open access basis but retains the copyright of the learning objects. The SAILOS is capable of working on intranet as well as Internet.

The availability of such an e-learning eco system is a requirement for SSR to be uploaded to NAAC. Hence, there is an immediate need to make arrangements for the deployment of the software. As a quality initiative, the IQAC recommends the deployment of SAILOS immediately.

The software is to be maintained and used at either MLRCC or CIST as they have the required infrastructure, servers and expertise. The University may also make arrangements to talk to Dr. Mukundraj, the developer. The coordinator/director of MLRCC or CIST may be directed to talk to him and make necessary arrangements for its deployment.

I request you to kindly accord administrative sanction to the deployment of the software through MLRCC or CIST following the due procedure.

With regards,

Yours sincerely,

*N.S. Harinarayana*

To

- (i) The Director,  
Internal Quality Assurance Cell (IQAC)  
University of Mysore,  
Mysore - 6.
- (ii) The Registrar, University of Mysore, Mysore - 6.  
Respected Sir(s),

Sub: Renewing the maintenance of SAILOS -  
Learning Management System (LMS) for  
next two years using the server of  
MLRCC - Reg.

The MLRCC-UPE developed a Comprehensive LMS  
called SAILOS (Students Academic Inf and  
Learning Objects) - using JOOMLA Software  
Develop. Kit with the official support of  
Dr. Mukundraj - IT Consultant - DOIT, GOK (his  
Ph. no: 9591 98829). We need to renew it.  
The annual maintenance would be around  
Rs 75000/- to 85000/-. The coordinator MLRCC  
has no drawing and disbursing power.  
The NAAC - SSR - Requires this kind of LMS  
to be operational within the Intranet of  
UOM. Through IQAC. Kindly take  
necessary steps to  
(i) get SAILOS demonstrated by Dr. Mukundraj  
(ii) arrange to pay him the annual land  
maintenance amount to maintain it for 2 years

Thanking you,

cc To: Dr. Chethan Sol. Officer - UOM.

  
(Prof. A. Balasubramanian)
