Dear Kesturu.

to me -

Greetings from Portland! I hope that you and your family are doing well?

A few things.

1) I have attached an early draft of the "SuBr3" paper. I am still working on the figures but if you can give the text so far a look I'd greatly appreciate it. We have changed the names of the compounds you sent us as you requested, and now SuBr3 is "S3". Please add the names of others who were involved in generating these compounds as co-authors, and add their affiliations if needed.

2) We are getting close to trying SuBr3 in a non-human primate model of MS. We'll need substantial amounts of it, as clean as possible. We have up to \$15,000 US to support this; if your University can invoice my university for the costs that would be the best way to transfer the money to you. In any case, let me know when it would be possible to get that, and please forward the invoice to me.

All my best,

Larry

We need to take necessary action to transfer money from them. Girish

With Regards
