Dear Sir,

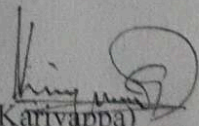

Subject: Seeking consent for organizing field visit and workshop at the site of Dodda Malate (Kodagu) (Kodagu dist) and to accept our invitation to be the Resource person

With reference to the above, I would like to formally inform you that we have planned to organize a field visit cum workshop on 19-02-2021 at the ASI Protected site of Doddamalathe in Somwarpet taluk, Kodagu district, where dolmens of Iron Age are present. I am given to understand that my colleague Dr. V Shobha, who has organized and is coordinating this event, has already communicated this to you orally. The purpose of this workshop is to introduce the post-graduate students of our Department to the typology of Megalithic burials as well as general characteristics of Prehistoric cultures in South India. We therefore request you to kindly extend your consent and co-operation for this field visit cum workshop.

In this context, we are also pleased to invite you as a resource person and request you to kindly speak to our students on the above subject.

Thanking you,

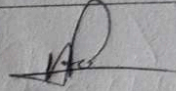

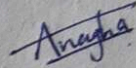

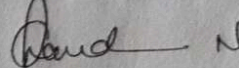

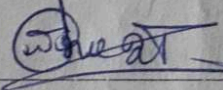

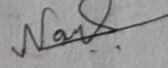

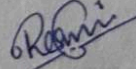

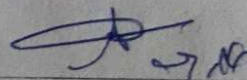

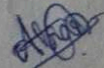

Sincerely,

(G. Kariyappa) 16/02/2021

Dear Sir,

Greetings.

We are happy to share with you that the field visit cum workshop that was organised for the students of our Department at Halebidu and Doddamalathe on 15th and 19th of February respectively, by my colleague Dr. V. Shobha, was well received by our students. The field training imparted by you and your colleagues at Halebidu (Hassan district) with regard to archaeological surveying, photography and exploration-excavation was indeed a good learning experience for our post-graduate students and greatly appreciated by our students and staff. So was the visit to the megalithic burial site of Doddamalathe in Kodagu district.

We are indeed grateful to you for readily extending your help and co-operation for making this academic program a success. We would also like to thank your colleagues Sri Shriguru Bagi, Dr. Aravind Naganoor, Dr. R.N. Kumaran, Dr. Sujana Stephen, Shri Basavaraju R. Mayachari, Shri Murali Mohan, Shri Sunil and all other staff for the academic interaction with our students.

Thanking you again,

Sincerely

(G. Kariyappa) 20/02/2021

in Ancient History & Archaeology

Report of Field visit and workshop organized at the Prehistoric site of Doddamolathe, Kodagu district, Karnataka on 19-02-2021.

On 19-02-2021, a one day field visit cum workshop was conducted by the Department of Studies in Ancient History and Archaeology at the prehistoric site of Doddamolathe in Somwarpet taluk of Kodagu district. Since Doddamolathe is a centrally protected site, i.e. under the protection of the Archaeological Survey of India (ASI), this program was done in association with the ASI, Bengaluru Circle, Bengaluru. The main objective of this program was to provide an overview of Iron Age-Megalithic burials in India in general and Karnataka in particular. A total of 25 students of MA and Ph.D. participated in this workshop in addition to the permanent and temporary faculty of the Department. Shri Sunil (Conservation assistant, ASI, Bengaluru circle) and Dr. V. Shobha (assistant professor, Department of studies in Ancient History and Archaeology) co-ordinated the visit on behalf of ASI and the Department respectively.

The Iron Age-megalithic burials (dolmens) at Doddamolathe are situated atop a small hillock, located in a valley with thick vegetation cover. The team reached the site at about 10.30 am and was welcomed by Shri Guru Bagi (Assistant Superintending Archaeologist, ASI, Srirangapatna) and Dr. Sujana Stephen (Assistant Archaeologist, ASI, Bengaluru circle). At the site, Dr. Sujana gave a detailed talk on Iron Age of India and the typology of Megalithic burials found in India, which was followed by interaction and discussion with Dr. Sujana and Shri Guru Bagi. Chandan Kumar D.M., a former student of the department introduced the students to the features of the burials at Doddamolathe in light of his dissertation work on megalithic burial sites of Kodagu district. The students then examined each of the 50-odd burials and became familiar with the techniques of constructing such burials. They were also taught about the method of documenting Iron Age-megalithic burial sites.

On the way back to Mysore, the team halted at another megalithic site, viz. Heggadehalli (Somwarpet taluk, Kodagu district), where excavations of burials were done by our Department as well as State Department of Archaeology in the 1970s and 90s respectively. There are just a few faint traces of burials at this site, where more than 500 burials once existed. This was helpful in understanding the current state of archaeological sites across the nation and how such sites may be identified and documented.

Dr. Sujana Stephen and Shri Guru Bagi interacting with the students at the Iron Age-Megalithic burial site of Doddamolathe
