

Annamalai University

To,
Dr. N. K. Lokanath
Professor
Department of Studies in Physics
Manasagangotri
University of Mysore, Mysuru – 570006

Dear Prof. N. K. Lokanath,

This letter is to confirm our commitment to collaborate on the research proposed entitled “**Structural studies of small molecules**”.

The Annamalai University is a leading institution in the country. We have a keen interest in the field of study and understanding the the structure of the small molecules and to look out for their potent applications as medicines.

I certainly appreciate the value of intelligent integration of information. The proposed research directions would help us focus better on the structural studies of the small molecules and the applications in different contexts. Our collaboration with you over the past several years has proved to be very important for all of us.

I look forward to active participation in this research initiative, on both the ‘**Structural studies of small molecules**’ as well as the ‘studies’ sides.

Sincerely,

Annamalai University
