

Vellore Institute of Technology

To,

Dr. Mahendra M

Associate Professor
Department of Studies in Physics
Manasagangotri
University of Mysore, Mysuru – 570006

Dear Prof. Mahendra M,

This letter is to confirm our commitment to collaborate on the research proposed entitled **“Nonlinear optical studies on small molecules”**.

I have a keen interest in the field of study and understanding the nonlinear optical studies on organic and metal-organic complexes by using Z-scan technique and to look out for their potent applications.

I certainly appreciate the value of intelligent integration of information. The proposed research directions would help us focus better on the nonlinear optical studies of the molecule and the applications in different contexts. Our collaboration with you over the past several years has proved to be very important for all of us.

I look forward to active participation in this research initiative.

Sincerely,

Division of Physics, School of Advance Sciences
