# ***International Webinar on Integrating Climate Diplomacy and Trade for a Sustainable Future***

---

## **PREFATORY NOTE**

In an era where the fate of our planet hinges on the delicate balance between environmental protection and economic progress, the convergence of climate diplomacy and international trade emerges as a inspiration of hope. As we navigate the complex web of interconnected challenges, the imperative to integrate these realms grows ever more pressing. The International Webinar on Integrating Climate Diplomacy and Trade for a Sustainable Future stands as a testament to our collective commitment to forging a path towards a greener, more equitable world. Through collaboration, innovation, and unwavering determination, we endeavor to transcend boundaries and cultivate a future where sustainability is not just a goal, but a shared reality. At the heart of our endeavor lies a profound recognition of the intrinsic linkages between climate diplomacy and international trade. From the carbon emissions embedded in global supply chains to the imperative of supporting developing economies in their transition to sustainable practices, every facet of our interconnected world calls for a holistic approach. Through this webinar, we seek to unravel the complexities, explore synergies, and chart a course towards a future where environmental stewardship and economic prosperity go hand in hand.

## **KEY THEMES**

- i. The webinar delves into the intricacies of carbon emissions in trade, aiming to mitigate environmental impact while preserving global commerce integrity. Through measures like carbon border adjustments and dialogue on product standards, we redefine sustainable trade contours.

- ii. Recognizing the imperative of global cooperation, we catalyze partnerships beyond borders for achieving net-zero emissions. Initiatives supporting emerging economies and technology transfer aim to cultivate a sustainable landscape.
- iii. Standing at the brink of transformative change, we address the urgent need to reformulate global trade and investment rules. Championing climate-aligned policies and amplifying marginalized nations' voices, we seek inclusive prosperity and environmental resilience.

### GENERAL DETAILS

**Title:** International Webinar on Integrating Climate Diplomacy and Trade for a Sustainable Future

### **ABOUT DEPARTMENT OF STUDIES IN LAW**

The Department of Studies in Law established in 1973 under the aegis of University of Mysore, stands as a beacon of legal education and research in Southern India. Renowned for its commitment to excellence, it has consistently led the charge in providing advanced legal studies and fostering a culture of scholarly inquiry. At the heart of its offerings lies the prestigious two-year LL.M. program, comprising four semesters of rigorous academic pursuit. This program boasts a diverse array of optional branches, including Constitutional Law and International Law, catering to the varied interests and aspirations of its students. Under the auspices of the department, research for Ph.D. in Law flourishes, underscoring its dedication to pushing the boundaries of legal scholarship. LL.M. studies at Mysore are distinguished by their emphasis on research, with candidates required to engage in dissertation work, thus ensuring a high degree of training and expertise in legal research.

The department's commitment to academic excellence is further evidenced by the publication of select student dissertations, showcasing the intellectual rigor and innovation fostered within its walls. Widely recognized for its intensive and high-quality teaching, the Department of Studies in Law attracts students not only from various states across India but also from countries as diverse as Afghanistan, Kenya, Tanzania, and Tibet. Its state-of-the-art facilities, including a well-stocked library, advanced computing resources, and other amenities, ensure an enriching and conducive learning environment for all who pass through its doors.
