Organises

One Day National Level Conference on Development Prospects of Indian Economy

(17th August, 2016)

Concept Note:

Though world economy stumbled in 2015, amid weak aggregate demand, falling commodity prices and increasing financial market volatility in major economies, but prospects for the Indian economy look 'very bright' with the remarkable turnaround witnessed in recent years. The macroeconomic indicators have also displayed an encouraging trend. India is growing at 7.5 percent overtaking China's 7.3 percent to become the fastest growing major economy in the world. The Economy of India is the tenth-largest in the world by nominal GDP and the third largest by purchasing power parity. With this backdrop, the objective of this conference is to focus on developmental prospects of Indian Economy.

Themes of Conference:

- Growth and productivity prospects of Indian agricultural sector
- Investment in agriculture
- Farmers suicides
- Agricultural Marketing
- Agricultural Subsidies
- WTO and agriculture
- Growth and Prospects of Manufacturing Sector
- Efficiency and Productivity of Indian industries
- Manufacturing exports
- FDI and manufacturing sector
- WTO and SSIs
- Employment and manufacturing sector
- Growth prospects of Service sector
- Trade
- Education and health
- Investments in infrastructure

- FDI in Retail sector
